

FIELD DAY 2020

Just a reminder about the 2020 Field Day taking place at MANITOIA AMATEUR RADIO MUSEUM located on the grounds of the Manitoba Agriculture Museum just south of Austin.

The date is Saturday, June 27 (1800 UTC) to Sunday June 28 (1800 UTC) 2020.

It is a good opportunity to gain some experience in operating in a DX contest atmosphere and learn how to operate our radio gear in different and less optimal situations. In our situation we have to imagine somewhat. But it could happen and Marm has all the equipment to handle an emergency happening.

Field day is a picnic, a campout, practice for emergencies, an informal contest and most of all "FUN".

All those who come are encouraged to bring their favorite munchies and drinks. We usually barbecue for supper and if you are staying (we encourage that) please bring something to cook for you.

Also we have a Bacon, eggs, toast and leftovers for the Sunday morning breakfast. So, book that weekend for "Field Day" June 27 and 28, 2020
